- Ergonomics design is suitable for long-time operation
- Simple maintenance; easy operation

About UNIONOVO CN III

UNIONOVO-CNIII is a professional A2+ scanner. It can support V-Sharped and Flat(need customize) used, Its maximum scanning size for single page is 310x450 mm (620x450 mm for 2 pages which is larger than A2); the maximum scanning thickness can be 150 mm. It can be used for scanning large books, magazines, drawings and scrolls. It is the first choice for ancient book protection, industrial drawing scan and other professional occasions. Optional V-shape design avoids books from being torn apart or being opened completely which can protect the books. There is no need to correct curvature of book spines. High-tech ICC correction is able to reappear the original copy as clear as possible. Luminescent LED with no ultraviolet ray or infrared ray will not cause radiation damage.

UNIONOVO focuses on high quality and high performance price ratio products.

UNIONOVO book scanners are widely used in research institutions, government departments, banks, land resources, mapping, machinery, art, printing and publishing, graphic simulation replication, ancient protection centers, courts and so on.

Quality, convenience, efficiency—UNIONOVO provides comprehensive services for you!
